Additional Information on Goal 3 (optional):

Although not directly related to an educational objective the Office of Student Affairs and Admissions continues to work on automating the processes within the office. The admissions process is essentially paperless; the largest part of the registrar process has been made electronic. Recently attention has been given to the matriculation and MSPE processes and make these processes paperless as well. Through regularly scheduled staff meetings, the office continues to identify or implement further changes by modifying current or generating new workflow procedures.
